## PROFESSIONAL SUMMARY

---

Motivated full-stack web developer with hands-on experience shipping production-grade applications across government, e-commerce, healthcare, and marketplace domains. Proficient in the Next.js / TypeScript ecosystem end-to-end - from building responsive UIs with React and TailwindCSS to designing RESTful APIs, managing relational and NoSQL databases, and deploying to cloud platforms. Comfortable in agile, cross-functional teams and able to contribute independently from architecture through deployment.

## PROFESSIONAL EXPERIENCE

### Full-Stack Developer · [PackUp - Supplipack](#)

Jun 2025 - Nov 2025

- Built and maintained a **mobile-first web app** enabling MSMEs to access wholesale packaging at reduced minimum order quantities (MOQs), improving supply-chain accessibility for small businesses.
- Developed and deployed **back-end API routes** and **database schemas**, ensuring data integrity across sender and courier workflows.
- Collaborated on **UI/UX design decisions** and supported end-to-end production deployment, delivering a smooth, responsive experience on both mobile and desktop.

### Full-Stack Developer · [DemiGAD - BayloCentral](#)

Jun 2025 - Nov 2025

- Contributed full-stack features to a Next.js 15 + PostgreSQL e-commerce platform for MSMEs, covering product listings, cart, checkout, and a social feed with likes, comments, and real-time updates.
- Implemented **Supabase Auth (JWT + OAuth)** and integrated **Prisma ORM** with versioned migrations, maintaining a clean, type-safe database layer across 6 migration iterations.
- Participated in **agile ceremonies** (stand-ups, sprint reviews) and provided design feedback, driving continuous improvement of platform features and performance.

### Full-Stack Developer · [Wisdomous Inc. - Apollo Medical Group](#)

Jan 2025 - May 2025

- Led front-end development of a **patient portal and hospital booking system**, delivering a responsive UI/UX serving both patients and admin staff.
- Refactored back-end logic and optimized database structure**, measurably reducing load times and enabling scalable, reliable performance under high-volume booking operations.
- Shipped to production in a **2-developer agile team**, contributing to design discussions, sprint reviews, and end-to-end QA before release.

### Full-Stack Developer · [DTI Iloilo - MSME Industry Map](#)

Aug 2024 - May 2025

- Built and deployed a **government-backed interactive MSME map** for Iloilo using Next.js, Firebase Firestore, and Google Maps API - enabling DTI admins to register, visualize, and monitor regional businesses.
- Designed a **RESTful API layer** with role-based access control (superadmin / admin), a two-step signup approval workflow, and cascading Firestore operations across related collections.
- Implemented **Zod validation** and end-to-end TypeScript type safety across API routes, form schemas, and Firestore utility abstractions, reducing runtime errors in production.

## PROJECTS

---

- Reisky - Traditional Filipino Martial Arts Website** · Freelance (Solo) Jan 2026 - Feb 2026
- Sole developer on a **multi-section marketing and class booking website** for a traditional Filipino martial arts school, targeting students of all ages - from kids to adults - built with Next.js.
  - Designed the site to highlight the school's achievements including **award-winning students with international competition results** and upcoming events featuring international mentors and seminars.
  - Achieved **Lighthouse scores of 92 Performance / 99 Accessibility / 96 Best Practices / 100 SEO** through semantic HTML, optimized assets, and Next.js image and metadata best practices.

## TECHNICAL SKILLS

---

<b>Languages</b>	TypeScript, JavaScript (ES6+), HTML5, CSS3, SQL
<b>Frontend</b>	Next.js, React, React Native, TailwindCSS, Radix UI, Framer Motion, SWR, Axios
<b>Backend</b>	Node.js, Express.js, REST APIs, WebSockets (Socket.IO), JWT, OAuth 2.0
<b>Databases</b>	PostgreSQL (Supabase), Prisma ORM, Firebase Firestore, Firebase Realtime DB
<b>Testing</b>	Jest, React Testing Library, Postman, ESLint, Selenium
<b>DevOps</b>	Git / GitHub, GitHub Actions (CI/CD), Docker, Vercel, Husky
<b>Practices</b>	Agile / Scrum, RESTful API design, Responsive Web Design, UI/UX Principles

## EDUCATION

---

- B.S. Software Engineering** · Central Philippine University 2026
- Relevant Coursework:** Data Structures, Algorithms, Web Application Development, Database Systems, Software Architecture, Software Development I-III, Software Testing, Software Quality Management, Network Protocols, Machine Learning, Engineering Data Analysis
